

HATE IN CONTEXT

INVESTIGATING CONTEXTUAL DRIVERS OF BIAS MOTIVATED CRIME

WiSe 23/24

Instructor:	Violeta Haas	Time:	Mi, 16:00 – 18:00
Email:	violeta.haas@hu-berlin.de	Place:	Room 002

Course Description

Hate crimes are on the rise, and so is support for political violence. Because of their subjugating and oppressing nature, bias-motivated offenses are generally viewed as qualitatively different in their effects. Compared to their non-bias-motivated counterparts, hate crimes strike thrice. First, by targeting the immediate victim; second, by sending a “message” to the victim’s perceived community; and third, by calling into question an open societies’ commitment to inclusion, equity and tolerance. As such, hate crimes pose a serious threat to democratic ideals and to the complex challenge of maintaining and strengthening a peaceful coexistence. In this course, we will explore the contextual drivers of hate crimes through a quantitative lens. By examining the existing literature, we will investigate the impact of various social, economic, political, and institutional factors on the frequency and prevalence of hate crimes. In addition to exploring the causes of hate crimes, we will also critically examine strategies aimed at preventing these acts. The course will feature two guest lectures by renowned scholars in the field. In addition to theoretical knowledge, this course emphasizes practical experience with empirical research. We will engage with common datasets, learn about relevant research designs and replicate existing studies. The course will conclude with a Mini-Conference showcasing the projects developed throughout the semester.

Office Hours: By appointment

Materials: Course material will be made available in Moodle. I may also send emails to your university account, so please check your account on a daily basis (automatic onward transfer may not always work; in particular with attachments!).

Moodle: [Hate in Context – 530167 \(WiSe 2023/24\) – Key: HiC2023/24](#)

Interesting References: This is a selective list of interesting and useful references. The materials in the list are not part of the required readings but are intended to provide further insights for those interested:

- Miller-Idriss, C. (2022). *Hate in the Homeland*. Princeton University Press.
- Mitts, T. (2021). Anti-Muslim hostility and jihadi radicalization [Podcast episode]. In Tarik, Abou-Chadi (Host), *Transformation of European Politics Podcast*. <https://soundcloud.com/user-467531770/episode-15-tamar-mitts-anti-muslim-hostility-and-jihadi-radicalization>.
- Gerstenfeld, P. B. (2017). *Hate crimes: Causes, controls, and controversies*. Sage Publications.

Learning outcomes:

- Have a critical understanding of core theoretical approaches to study bias motivated crime.
- Have a well-developed knowledge of the empirical literature investigating the social, economic, political, and institutional drivers of hate crime.
- Ability to apply this knowledge to (current) empirical examples.

Requirements:*I: Attendance, Readings, and Active Participation (2 ECTS)*

Active participation is central to this class. Participants are expected to have read the assigned readings prior to class and should be able to engage critically with the contents. Class sessions are designed to provide a forum for clarification and discussion – not for extensive summaries and recaps – of the readings.

II: Weekly Comments, Position Paper and/or Problem Set (2 ECTS)

Participants are expected to upload weekly comments to a designated Moodle Forum until **Tuesday midnight before class**. The comments should focus on the required readings and are intended to promote discussions. These comments can be critiques, questions, or reflective thoughts. Participants may skip one week's comments using up to three Jokers throughout the semester. Additionally, participants should prepare a short (800-1.500 words) position paper for one of the substantive sessions. In this paper, participants are asked to express and defend an opinion based on the readings. For example, you may (dis)agree with the authors' key arguments, whether they are useful to explain current political developments, or take sides when readings show conflicting findings. You should be prepared to talk about the views you expressed in the paper and discuss them with your class mates. Papers are due on **Monday 6 p.m. before class**. The position paper can be traded for a data-related problem set that will be released after the Lab Session.

III: Group Project and Mini-Conference (1 ECTS)

The final two sessions will culminate in a Mini-Conference. Participants will have the opportunity to showcase their group projects and engage in discussions about their peers' work. Group projects may take various forms, such as a research design, where participants will 1) formulate a research question, 2) present the current state of research, 3) develop a compelling argument, and 4) outline their approach to addressing the question (including case selection, methodology, and sources). Alternatively, groups can choose to collaborate on data projects, such as visualizations or solutions for measuring hate crime. To ensure smooth project selection and planning, please schedule an office hour with me early next year to discuss your chosen project.

Plagiarism:

I will sanction any form of plagiarism including, but not limited to, self-plagiarism, full plagiarism, and ghost-writing. Please also note that plagiarism may occur in any form of evaluation (including oral presentations, slides, questions, papers).

Important Dates:

Guest Lecture by Sascha Riaz	December 20, 2023
Guest Lecture by Gemma Dipoppa	January 31, 2024
Mini-Conference Day I	February 7, 2024
Mini-Conference Day II	February 14, 2024

COURSE OUTLINE

October 18, 2023: *Introduction*

Introduction, course outline, and administrative issues

October 25, 2023: *Conceptualizing Hate Crime*

Required Readings:

- Dancygier, R. M., & Green, D. P. (2010). Hate crime. In: Dovidio, J. F., Hewstone, M., Glick, P., & Esses, V. M. (Eds.). *The SAGE handbook of prejudice, stereotyping and discrimination*, 294-311.
